Uplifting Lives

Donated PPEs and food packages to ~18k health workers

Raised ~Php30m from employees via fund-raising programs supporting the most vulnerable and our own daily wage earners

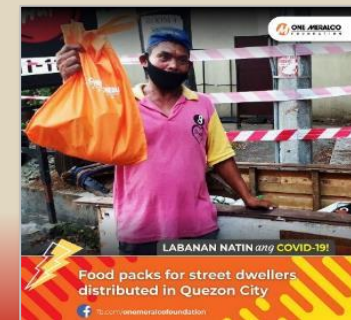

Partnered with the DOTr and LGUs to deploy electric vehicles transporting health workers and essential personnel

Converted Multi-Purpose Hall to provide temporary accommodations for frontliners from The Medical City

Donated care packages to more than 11k marginalized families

Energized and ensured continuous power to over 700 vital institutions, including government agencies, hospitals, and temporary treatment facilities

For One Meralco, this is only the beginning.
