Covid-19 Pandemic Impacts to PHL Elections

Source: Gulf News

- Postponement of Palawan Plebiscite from May 11, 2020 to March 13, 2021;
- Limited and disrupted schedule of voter registration due to quarantine restrictions;
- Number of registered voters: ~63M so far vs. 63.6M registered voters in 2019 elections (61.8M in Philippines and 1.82M overseas);
- Possible postponement of BARMM elections**
- Various measures to address anticipated issues and challenges in the 2022 elections

Threats to Participation in 2022 PH Elections

- Health threats during registration, campaign, election, and post-election;
- Administrative and logistical challenges;
- Low registration among new eligible voters*;
- Non-renewal of many deactivated voters*;
- Low voter turnout on election day;
- Threat of misinformation and disinformation;
- Civil society and election watchdogs may be limited in terms of mobilizing;

Possible PHL Mitigation Measures in 2022 Elections

Source: Manila Bulletin

Comelec New Normal Committee (Res. No. 10688)

- Consult the appropriate government agencies/departments ...
- Identify which election operational activities need changes ...
- Formulate and develop a comprehensive manual ...

Possible PHL Mitigation Measures in 2022 Elections

Source: Philippine News Agency

Repeat of Palawan Plebiscite measures ++ ?

- Additional guidelines for campaign?
- Early voting; Extension of voting hours?
- Change in venues (larger? new venues)?
- Reduced clustered precincts sizes; additional voting precincts?

Factors that will Shape 2022 Philippine Elections

The Conduct of 2022 Elections depends on:

- General Covid-19 situation: cases, variants
- Progress of national vaccination campaign
- Adequacy of COMELEC preparations
- IATF and national government policies
- How election stakeholders respond
- Cooperation of political parties, candidates, and the general public with measures

The Future of Elections Post-Pandemic: Possible Global Scenarios

Post pandemic, the following trends may continue:

- Efforts to streamline electoral systems
- Increased shift to online or hybrid voter registration
- More countries may adopt postal or electronic voting
- More countries may adopt electronic voting
- Increased adoption of mobile voting
- Greater interest in internet voting systems
