

JOINT PROBE BY PH & CHINA

The plan for a joint probe by the Ph and China is the worst news yet. It redounds to a potential partnership between one party (Ph who is out to seek the truth) against another party (China, the bully) who is out to suppress it.

We should really feel sorry for our poor fishermen as the ultimate product of a joint probe with Beijing is expected to be no more than a bowl of fruit salad.

Can we please not insult the intelligence of our people? END
